# SHORT TALK SUBMISSIONS

A goal for the TforT Conference+ is to challenge the status quo and deep assumptions within academic health care. As such, we are providing you a choice for your submission. We do so with the goal of being more accessible to those whose work fits less into traditional methods of academic presentation, and remote critical reflexivity through our conference planning process. The two submission options are:

**Option A:** Submit an existing Introduction, Methods, Results, and Discussion (IMRaD) format of abstract

**Option B:** Select one of the following questions and answer in 500 or less words in lieu of a formal abstract:

1. How was this work transformative?
2. How was this work disruptive to the status quo?
3. What concept(s) does your work highlight and how does it relate to transformative education?
4. What do you wish someone would ask you about your work related to the conference theme? How would you respond?

**\*\*All fields must be complete for the submission to be considered.\*\***

## Option Choice:

If Option B, which question are you responding to?

## Title of Project

**Abstract or Question Response** Please enter the text of your abstract **OR** response to selected question. (~500 words max)

## Relating to Transformative Education

How does your presentation relate to the conference theme of transformative education? (250 words max)

## Theme of Work

How would you summarize the key theme of your work to a non-academic or lay audience in 1-2 sentences?

## State of Project

For our organization purposes only, with no bearing on acceptance, is your submission completed work or a work in progress?
